| C. to watch what you are eating | H. to make further steps towards stopping completely |
| D. to change your sleep patterns | I. to get rid of and eradicate completely from your life |
| E. to be expensive in the least bit | |

How to stay fit, happy and healthy

If you’ve been listening to the news you already know about our national obesity levels rising by the day. It has never been more important **1** _____ and to get an adequate amount of exercise and sleep to keep yourself fit and healthy. Though it may feel like really hard work at first, once you adopt an exercise routine and start **2** _____, you’ll forget you ever did things differently.

Here are just four of the top adjustments to make:

Get more sleep!

Sleep is huge and almost a third of the US population doesn’t get near enough to staying physically and mentally healthy. If you are sleep deprived, try changing your habits in order **3** _____.

Strive for a better diet

Look at your diet and what you’re eating now and make changes where you see fit. If you are susceptible to snacking, keep a piece of fruit or a few nuts at hand. The key is to eat small meals throughout the day. Reduce portion sizes, take out white bread and replace it with whole grains, and make sure each meal contains at least one portion of fruit and/or vegetables. Healthy food doesn’t have **4** _____, and you can get an abundance of low priced fruit and veggies, like apples, bananas, potatoes and peas.

Stop all those bad habits

Take a look at your current lifestyle and make a small list of everything you do that is not good for your health. This could be anything, from eating too much junk food or drinking too much caffeine, to smoking or drinking. Start the process of breaking these habits one by one. Some will be easy, while others may take months or maybe years **5** _____, but the sooner you start fighting, the better.

Some addictions (like smoking, drugs or alcohol) are incredibly bad not only to your health, but also to your pocketbook. If you smoke and – or drink, start by cutting back on how many drinks you have, or cigarettes you smoke, in a day, and if necessary, seek medical advice and assistance **6** _____.

Exercise, exercise, exercise

We all should be doing at least 30 minutes of exercise, 3 to 4 or more times a week, **7** _____. This can be pretty much anything that is physical, like walking, cycling, running, swimming to weightlifting, etc. This too does not have to be expensive, and you can get a great work out without joining any costly gyms. Most of these exercises are inexpensive, and just doing a cardiovascular exercise, like walking, jogging, or walking on a treadmill a few times a week will do your body (and heart) good.

II. Use compound nouns/compound adjectives

Example: A box for tools that is made of steel — A steel tool box

1- reference books for self-study

2- the stocks of fish in oceans

3- a survey of children who have only one of their parents

4- a centre used for launching missiles

5- a report was written in a good manner

III- Use the correct phrasal verb to fill the gaps. Choose among the following verbs and put them in the correct tense.

Switch on	Get away with	Get over	Look for	Click on
sum up	Give up	Get up	Fall over	Close down
Sit down	Go away	Chill out	Hand in	Put away

1. We want to _____ for the weekend. We'll probably go to Cuenca.
2. I have finished all my exams. After all that stress I need to _____.
